Prototyping

Mobile (iOS/Android)

A/B testing

Product Designer

Nov 2019 – May 2022

Drom.ru, Novosibirsk, Russia

- Extensive experience collaborating in cross-functional teams with PMs, analysts, engineers, and QA.
- Owned the design of 3 applications with 10M+ downloads.
- Doubled payment conversion by identifying and redesigning critical user flow issues through behavioral analysis and usability testing.
- Nearly doubled photo submissions by redesigning the photo-upload onboarding flow, increasing visits to the upload screen by 27%.
- Enabled faster experimentation on the main app screen by redesigning the architecture into a modular system, allowing the team to launch A/B tests with every release.
